

Insurance Solutions for the Medical Tourism Industry

Medical Tourism Companies assist clients in need of important, and occasionally life-saving medical treatments. However, as with any procedure comes the risk of complications, which could jeopardize a company's reputation and assets. Obtaining appropriate insurance policies will help protect and secure the future of your business.

Professional Liability Insurance

If a facilitator is sued for unintentional misrepresentation of information or a negligent act, a professional liability policy would cover the amount legally required to be paid by the facilitator and the associated defense costs.

Policy can be configured to include:

- > Claims against the insured arising from the actions of consultants, sub-contractors or agents
- > Libel and slander
- > Joint venture liability
- > Breach of confidential information/ privacy extension
- > Contingent bodily injury extension
- > Worldwide territory/ jurisdiction
- > High limits available

Personal Accident Insurance

Personal Accident coverage pays a pre-agreed upon amount if the medical tourist is permanently disabled or dies during the trip. This immediate compensation may also dissuade the beneficiaries from engaging in a tedious and costly litigation process.

Policy can be configured to include:

- > Accidental death as a result of the medical procedure or accident
- > Permanent disablement from the medical procedure or accident
- > Medical expenses / hospitalization resulting from an accident or sickness
- > Return trip extension
- > Evacuation and repatriation
- > Medical expenses for further consultation

Complications Insurance

Follow-home medical coverage for complications arising from a covered medical procedure.

- > Wide list of covered "complications"
- > High benefit and incurral period
- > Limited exclusions
